

WINSTONE FIT

FITNESS & WELLNESS

PRODUCT COLLECTION

Winstone Industrial Tech Co., Ltd.

STRENGTH IN MOTION. BALANCE IN LIFE.

Strength Equipment

AI product and scene illustration

Equipment categories for strength zones, personal training studios and commercial gyms.

Racks & benches

Squat stands; half racks; power racks; bench press racks; weightlifting racks; combination racks; adjustable and flat benches

Strength stations

Selectorized and plate-loaded machines; multi-stations; Smith machines; cable crossovers; leg press; lat pulldown / low row

Specialty & outdoor

Belt squat; T-bar row; hip thrust; glute-ham developer; back extension bench; outdoor strength equipment

Specify footprint and exercise clearance, adjustments, rated loads, anchoring, attachment interfaces and maintenance.

Free Weights & Functional Training

AI product and scene illustration

Coordinate training tools, storage and flooring into a well-organized exercise zone.

Free weights

Dumbbells; barbells; bars; weight plates; kettlebells; lifting platforms; trap bars; collars

Functional training

Functional rigs; push/pull sleds; plyometric boxes; medicine balls; sandbags; battle ropes; resistance and suspension equipment

Storage & surfaces

Dumbbell racks; plate storage; modular storage; rubber gym flooring; training turf; equipment attachments and spare parts

Specify weight tolerance, grip and finish, material durability, flooring application, connection dimensions and replenishment sizes.

Cardio Equipment

AI product and scene illustration

Select user-powered or motorized equipment for the intended duty cycle and service environment.

Running & climbing

Commercial motorized treadmills; non-motorized treadmills; curved treadmills; climbers; stair trainers

Cycling & elliptical

Commercial ellipticals; indoor cycling bikes; upright bikes; recumbent bikes; air bikes

Rowing & ski training

Water-resistance rowers; magnetic rowers; air rowers; ski trainers; seated cross trainers

Specify resistance type, user range, power and console configuration, noise, maintenance access and local servicing.

Pilates Equipment

AI product and scene illustration

Build a studio range around the Reformer, complementary apparatus, accessories and service parts.

Reformer range

Reformers; commercial aluminum Reformers; solid-wood Reformers; tower Reformers

Studio apparatus

Cadillac; split-pedal chair; ladder barrel; spine corrector; combination apparatus; dedicated stretching equipment

Accessories & parts

Sitting boxes; jumpboards; platform extenders; loops and straps; springs; ropes; pulleys; carriage wheels

Specify carriage size and travel, bed height, footbar locking, spring configuration, storage method and accessory compatibility.

Sauna Facilities

AI product and scene illustration

Define cabin, interior and heating/control packages separately for the installation site.

Cabins & kits

Commercial sauna cabins; prefabricated rooms; outdoor sauna kits; infrared cabins

Interior components

Sauna benches; modular backrests; footrests; timber grids; doors and hardware; heater guards

Sauna accessories

Wooden headrests; buckets and ladles; sand timers; thermometers and hygrometers; outdoor timber shower enclosures

Confirm timber, capacity, duty cycle, voltage/frequency, heater package, ventilation, drainage and installation responsibilities.

Cold Plunge & Contrast Facilities

AI product and scene illustration

Discuss tubs, chillers, filtration and installation accessories as distinct project components.

Tub formats

Cold plunge tubs; immersion systems; stainless-steel basins; timber-clad soaking tubs; insulated shells

System options

Separate chillers; circulation and filtration; serviceable plumbing connections; heating/cooling configurations

Access & accessories

Insulated covers; steps; handrails; catch basins; drainage fittings; system-specific filter consumables

Confirm water volume, ambient conditions, cooling duty, bather load, electrical/plumbing requirements, cleaning and maintenance.

SPA Facilities & Furniture

AI product and scene illustration

Bring treatment tables, workstations and furnishings together in a calm, coordinated spa environment.

Tables & seating

SPA treatment tables; stationary non-electric tables; portable folding tables; non-electric portable massage chairs; therapist stools

Furniture & accessories

Spa furniture; treatment workstations; trolleys; linen cabinets; face cradles; armrests and footrests; bolsters

Hydrotherapy components

SPA pool shells and accessories; steps and handrails; equipment service access; project-specific interfaces

Specify working load, adjustment method, upholstery cleaning resistance, accessory interfaces, packaging and spare parts.

Wellness & Recovery Spaces

AI product and scene illustration

Plan rest, stretching and support facilities for hospitality, clubs and professional training spaces.

Yoga & mobility

Modular yoga and recovery spaces; yoga mats; blocks; stretching straps; foam rollers; stretching aids

Rest & organization

Wellness loungers; accessory storage; commercial massage chairs; non-electric relaxation furniture

Accessible exercise

Age-friendly exercise equipment; balance and gait-training facilities; low step-through equipment; accessible handrails and support fixtures

Space planning: user groups, access and transfer space, supports, locks and the everyday environment.

Our Brand Story

AI factory and workshop concept illustration

WINSTONE FIT believes a fitness space should bring strength, focus and relaxation into a natural rhythm.

Strength in motion

From the first repetition, make movement a confident and positive part of everyday life.

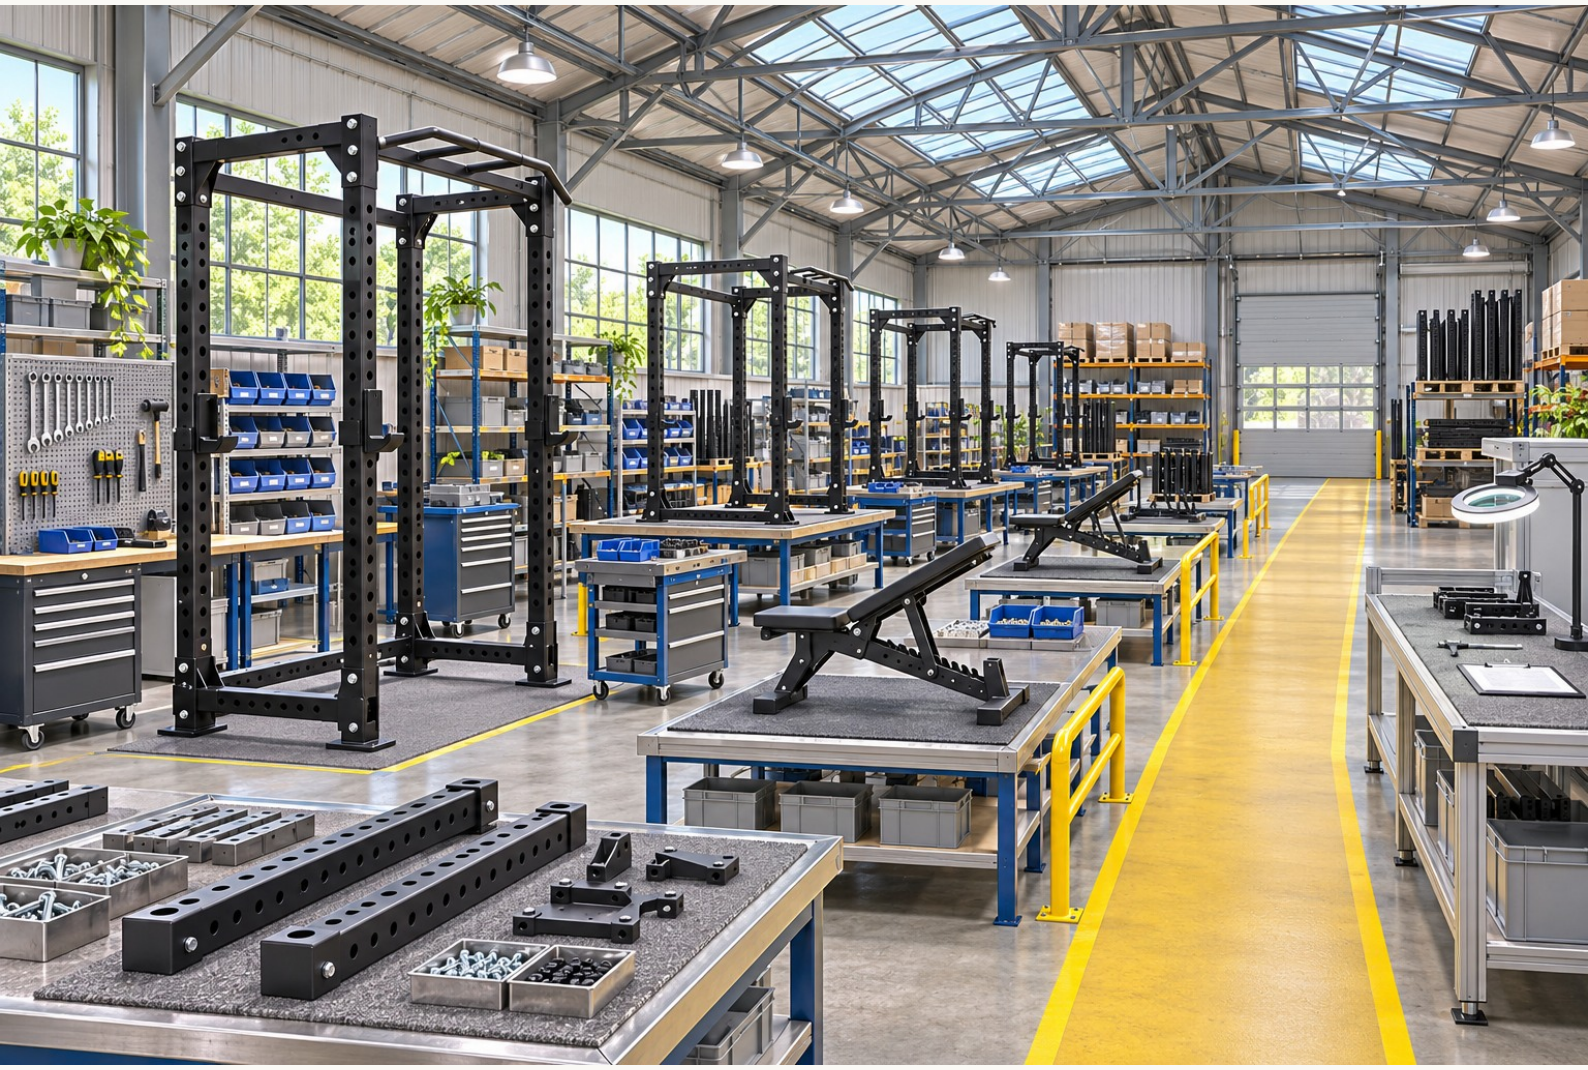
Focus & balance

From Pilates to yoga, bring attention to movement, rhythm and the spaces that support practice.

Rest & renewal

From sauna to wellness lounges, make room to unwind after activity.

Details That Matter



AI factory and workshop concept illustration

Our product philosophy starts with practical details: fluid movement, considered layouts and an intuitive everyday experience.

Functional details

Consider grip, adjustment, locking and movement paths in relation to each exercise.

Coherent spaces

Bring equipment layout and storage together for an organized, consistent environment.

Everyday use

Consider cleaning, maintenance and accessory choices as part of the daily experience.

Discuss Your Project
